## **REYNOLDS' ANATOMICAL CROWNS**

**LOOK BETTER**

**LESS WORK IN FITTING**

Made of 22 karat, 30 gage gold, uniform shapes and sizes. Cusps and incisal edges are nicely rounded and the occlusal third of the crowns is anatomically contoured to make adaptation easy and save your time. They are hydraulically swaged to eliminate weak spots, therefore, they help avoid accidental burning through soldering operations. Burnished finish.

## **Order from your salesman today!**

Illustrated and descriptive folders containing forms, sizes, prices, methods of using the crowns are available. Ask your salesman, or you are invited to write direct.

**Chicago Dental Society Announces  
Its Sixth Annual Prize Essay Contest**

**Winner to Receive Cash Award of \$500.00**

As its contribution to the encouragement of continued scientific research in dentistry, the Chicago Dental Society announces its now famous nation-wide essay competition for the best essay reporting an original investigation in the field of research. A prize of \$500.00 will go to the author of the winning essay and he will be invited to present it at the 82nd Midwinter Meeting of the Chicago Dental Society at the Stevens Hotel next February.

Any member of the American Dental Association, or of a recognized foreign dental society, or anyone affiliated with a recognized institution in the dental field may apply for authorization to enter the competition. The contest is not limited to research men having technical staffs and elaborate equipment at their disposal, but is open to any qualified person who believes he has something new and important to contribute to dentistry.

The Chicago Dental Society, through its duly appointed committee, shall pass upon the qualifications of applicants. Additional information relative to contest rules and application forms may be obtained by writing to the Chicago Dental Society, 30 North Michigan Avenue, Chicago 2, Illinois. All applications must

be filed with the Society on or before October 1, 1946.

**WINNERS OF PREVIOUS AWARDS**

The first essay contest was held in 1942 and, fittingly, a member of the Chicago Dental Society won the award. He was Dr. LeRoy E. Kurth and his subject was "Mandibular Movements in Mastication." Dr. Harry H. Shapiro and Dr. Raymond C. Truex were the next year's winners and their research was along much the same lines as Dr. Kurth's. Their paper was entitled "The Temporomandibular Joint and Auditory Function." The 1944 competition saw Dr. Irving Glickman of Boston carry off the award. His entry was entitled "Systemic Influences on Bone Changes in Periodontoclasia." In 1945 another Chicagoan, Dr. John R. Thompson, won first place. Dr. Thompson's essay had to do with "The Rest Position of the Mandible and Its Significance to Dental Science."

Last year the investigation that won the award dealt with caries control. Dr. Robert G. Kesel and his associates at the University of Illinois presented the results of their study, "The Biological Production and Therapeutic Use of Ammonia in the Oral Cavity in Relation to Dental Caries."

# Gold Inlays and Crown and Bridge Prostheses\*

A. H. Bassman, D.D.S., Milwaukee, Wis.

## Crown and Bridge Construction

The dentist in undertaking the construction of a fixed or semi-fixed bridge must make a careful examination of the mouth with the aid of x-rays and study models. A common mistake in dentistry is the placing of a permanent bridge upon sockets immediately or shortly after extractions. This type of restoration regardless of the quality of its workmanship can only be considered temporary in its merits. Changes in tissues are uncontrollable and therefore a successful bridge is to be made only upon edentulous areas which have undergone the healing process of at least three to six months. Treatment partials, without clasps, should be inserted immediately after extractions for the above mentioned period. The span of the edentulous area, the length of the roots, crowns and the designs of the attachments on the abutment teeth are to be studied thoroughly. The soft tissues and bone in the mouth must be generally healthy or failure of the restoration is the ultimate result. The removal of cuspal interference and obtaining a functional balanced articulation of the abutment teeth is the secret of a healthy, comfortable and durable restoration. The above factors are to be considered before operative procedure is begun.

### ATTACHMENTS

In the selection of attachments one must depend on a full cast crown, a three-quarter crown or a modified MOD inlay for the main support; smaller inlays in which occlusal rests are received can also be used. The principle of external retention in cavity preparation is to be incorporated wherever possible. Full cast crowns on first and second

\*This is the second part of Dr. Bassman's article. The first part appeared in the July 15 issue of this journal.

molars, three-quarter crowns on anterior teeth and first and second bicuspids are most desirable attachments. Two surface inlays are definitely to be discouraged as main attachments. Local anesthesia in the cavity preparation is a necessary procedure. Diamond stones are of great assistance in these preparations. Upon completion of the abutment preparation, full cast crowns are made on amalgam dies by the indirect method. Three-quarter or MOD wax patterns are obtained by the direct method and the use of a matrix in making patterns is optional. One should use the casting process in which a normal investment expansion is obtained. In melting gold one is to be cautious of overheating. A gold possessing a Brinell hardness of 120-140 is most suitable. When the gold attachments are fitted, again a correct centric functional occlusion and a good contact point should be established. The desired shades are selected and a diagram of staining is recorded. Full plaster impressions are taken in lubricated trays; removal of the tray separately and splitting of the impression is the only method by which the impression can be considered accurate and of any value.

### WORKING CASTS

Immediately after removing the impression from the mouth, the gold attachments and parts of the impression should be assembled. Low fusing metal, or a combination of low fusing metal and stone models are secured as master working casts. With the aid of plaster splints the operator or technician can determine the entrance of the finished bridge before the actual construction of the pontics is begun. At this time the decision whether the bridge is to be fixed or semi-fixed is determined. The casts are properly ar-

# NEWS AND ANNOUNCEMENTS

---

## **WAGNER-MURRAY-DINGELL BILL STYMIED BY CONGRESS**

The controversial Wagner-Murray-Dingell Bill has been side-tracked so far as the present session of Congress is concerned. News dispatches from Washington state that the administration feels that it is impractical to attempt to get the bill passed when adjournment is so near at hand.

Senator Pepper, seeking to salvage a piece of the legislation, sponsored a separate bill dealing with health services and medical care for mothers during maternity and for children. His bill provides for federal grants to the states for this purpose. But, according to reports, even this bit of legislation will fail to pass because members of the committee have not had time to study it.

## **HINES HOSPITAL INCREASES DENTAL STAFF**

Nearly fifty per cent of the disability claims filed by veterans include application for dental treatment. Consequently, the Veterans Administration has increased the personnel at the out-patient dental clinic at Hines Hospital to take care of their unexpected load.

Veterans must present their honorable discharge certificates when applying for treatment, and their dental defects must be service-connected.

## **BLUE CROSS**

Approximately one million people are now enrolled in the Blue Cross Plan (Plan for Hospital Care) which, getting down to percentages, means that every fourth person in Chicago belongs. And now, effective July 1, all veterans of both World War I and World War II will be eligible to enroll. This should add another 35,000 members. All coverage is being provided under the new comprehensive certificate, which costs \$2.25 a

month for a family. After July 1 a veteran can enroll if his application is placed within 60 days following his date of discharge.

Members of the Chicago Dental Society may obtain information about the Plan by telephoning the Society office, State 7925, or the Blue Cross Plan, Randolph 2121.

## **GENEVA DENTAL LABORATORY NOW FUNCTIONING**

After a number of setbacks due to lack of materials and trained help a dental laboratory has been established in Geneva, Switzerland, whose function is to supply dentures to the refugees from other parts of Europe. The funds necessary to maintain the laboratory are supplied by relief organizations for supplying dentures takes money and the patients, for the most part, are destitute. These refugees had spent years wandering from camp to camp and from prison to prison before being interned in Switzerland, and their teeth were in a frightful condition. Even so, they had to be practically toothless to qualify for a denture.

The Geneva dental laboratory is the only one of its kind in Europe, for it is not only a laboratory but a school for dental mechanics as well. It takes refugee children between the ages of 15 and 21 and gives them a two-year course. Upon completion of their training these young people will have a useful vocation and, since there is a shortage of dental mechanics and will be for years to come, they should find it lucrative as well.

## **WAR VETERANS FLOCK TO DENTAL SCHOOLS**

Two-thirds of the new dental students this fall will be war veterans according to Dr. Harlan H. Horner of the Council on Dental Education of the American Dental Association. His prediction is based

on the fact that so many members of the armed forces were either already enrolled or preparing to enroll in the dental schools of the country when war broke out. In fact, the freshmen enrollment may exceed 3,000 students and surpass the previous high of 2,702 which was reached in 1942.

This upward trend in applications means that a large number of students will be unable to secure admission because of a lack of educational facilities. This is the first sign since the beginning of World War II that the number of dental graduates may keep up with the increase in population. But, even at this accelerated pace, the country faces a shortage of dentists for a decade or more to come.

## VETERANS FACTS AND FIGURES

The veteran population of the United States was over 15,000,000 on April 30. Of this number 1,623,000 were receiving unemployment allowances, 75,104 were being rehabilitated as disabled veterans, 620,465 were receiving education or on-the-job training, and 1,838,241 were receiving disability pensions or compensation. Only 133,293 veterans have negotiated guaranteed loans for homes, businesses or farms.

## SEPARATION CRITERIA FOR DENTAL OFFICERS

The Army and Navy announced on May 29 that only a two-year period of service would be required of medical corps officers after July 1, 1946, but that a three-year period of service would be required of dentists. The reason for this discrimination is that, pending the induction of the 1,500 dentists whom Selective Service has called up, it is necessary to maintain the longer period of service for dentists. As soon as a sufficient number have been inducted the criteria will be progressively reduced.

If a dental officer is surplus to the command in which he is serving and is within two months of eligibility for

release, he will be discharged at once. The War Department will make every effort to see to it that all officers who have become eligible for release will be separated from the service at least within 60 days after the date they become eligible.

Assuming that the foregoing orders are carried out, nearly 1,000 dentists will be released in the very near future.

## DR. JOHN MARCUS BECKETT 1873-1946

Dr. John Marcus Beckett died at the Woodstock Hospital on June 12 after a month's illness. Surviving him are his wife, Mrs. Rose Amelia Beckett; a daughter, Mrs. Carolyn Beckett Edwards of Crystal Lake; and a sister, Nancy Lenore Palmer, also of Crystal Lake.

Dr. Beckett was a graduate of Northwestern University Dental School, receiving his degree in 1904. He practiced in Chicago for 38 years, having another office in Crystal Lake the past 25 years.

To the bereaved relatives, the officers and members of the Chicago Dental Society extend their sincere sympathy.

## DR. PAUL G. PAPSDORF 1890-1946

Dr. Paul G. Papsdorf, who practiced oral surgery and exodontia at 69th Street and Normal Avenue for the past thirty years, died June 21, 1946. He is survived by his wife, Inez, and three brothers, Bruno, Fred and Theodore. Burial took place at Shelbyville, Indiana.

Dr. Papsdorf received his degree in dentistry from the Chicago College of Dental Surgery in 1915, and in 1922 he received his degree in medicine from the Chicago Medical School. He was a member of the Englewood Branch of the Chicago Dental Society, the Chicago Medical Society and Psi Omega Dental Fraternity.

A very hard worker in his chosen field, Dr. Papsdorf will be missed by the people he served and by a host of friends and acquaintances.—*Boles G. Gobby*.

# NEWS OF THE BRANCHES

---

## WEST SUBURBAN

The last meeting of the West Suburban Round Table of this season was held July 1 at the Oak Park Club. We had a good attendance and much interest was exhibited in the denture technique subject. Our good member, Bill Tolar, was with us again. We were happy to welcome a new member, Robert E. Watts, who recently established his office at 5359 West Chicago Avenue. Bob served a tour of duty in the U. S. Navy after his graduation from Northwestern University Dental School in 1945. Charles W. Dvorak has resumed practice at 5147 Cermak Road after serving forty-two months in the Army Dental Corps. We will be glad to see these members at our Round Table meetings and at the regular meetings of the West Suburban Branch. President Ed Moore announced that Joe Lestina is the new chairman of the Round Table and that Rudolph Hinrichs will continue his capable work as program chairman. John C. Dummelow will continue as treasurer and attendance chairman. He is doing a good job. We are grateful to Harry Nortell, the retiring chairman of the Round Table. It was his enthusiasm and persistent effort that revived the Round Table meetings. . . . On June 27, a son was born to Karl and Mrs. von der Heydt. They also have a daughter, Sue, who is now two and one-half years of age. . . . Quentin F. Mangion was recently discharged from the Navy Dental Corps. He has established an office at 212 South Marion Street, Oak Park. We hope to see him at our meetings very soon. . . . Marshall Milnarik spent thirty-four months in the Army Air Corps. We are indeed proud of him. He has established an office at 6743 Stanley Avenue, Berwyn. We welcome him and all of our other members who served in the armed forces back to West Suburban.

. . . We are indeed sorry to hear of the illness of Jack Treat of LaGrange. Our best wishes to you for a speedy recovery.  
—Asa J. LaGrow, *Branch Correspondent*.

## NORTHWEST

Another deadline is upon us. Doesn't time fly! . . . Your reporter deeply regrets the absence of our column in the recent issue. . . . These are days when our thoughts are of vacation trips and new automobiles. I am looking forward to a new Mercury soon. Our president, Bob Placek, is waiting for a Studebaker. Right now he is busy lining up his various committees and preparing an interesting series of meetings for Fall and Winter. . . . Hugo Chott is back from some "big" fishing at Spooner, Wisconsin. . . . Pete DeBoer is driving with the family to Upper Michigan Peninsula for his vacation. . . . Glenn Cartwright spent some time at Winchester, Wisconsin, resting. . . . Ed Pacocha is still celebrating the arrival of a son. . . . Louis Lebow is planning a trip to Excelsior Springs, Missouri, where he says you can satisfy your every desire. Incidentally, if you like handball, arrange a match with Louis. . . . Ex-President Sam Goodfriend and his family are going to New York on August 11 to attend the wedding of a son, Gibert, to Miss Muriel Landis. Incidentally, Sam is a proud grandfather. Congratulations, Sam. . . . Charley Janicki, our "gentleman farmer," is now practicing only one night a week. . . . Mort Lambert is looking and feeling swell since discontinuing night hours at the office. Guess those fellows are realizing you've got to take it easier after practicing dentistry for thirty years. . . . Better mark off your appointment book now for the State Society's Eighty-Second Annual Meeting to be held in Chicago September 16-19. The July issue of the

Journal of the State Society contained the program. You can't afford to miss this meeting. Feasting at the table of knowledge will make the practice of dentistry easier. . . . Don't forget fellows, I'm waiting for news at Seeley 7770.—*Gustave J. Tilley, Branch Correspondent.*

#### NORTH SUBURBAN

I feel lower than the low man on the totem pole these days. All the boys are taking vacations but me. . . . C. A. Cameron will be in Estes Park for a month and C. H. Betzer will be in Colorado for the same length of time. . . . E. D. Fritsch is also one of the lucky persons away from his office. . . . G. G. Chinnock is in Waupaca. . . . John McGuire, Sr., spent some time on his farm near Warsaw, Indiana. . . . J. A. Studebaker will be gone the entire month of August, but my stooges neglected to find out where he is going. . . . Frank Trangmar will be up in the air for a while because he is going to fly to California for a three-week vacation. . . . Tina Dolce and her husband took a month to explore parts of the South. Part of their time was spent on the Chattanooga steamboat. Tina's husband, by the way, is now in dental school. . . . Hal Chason expected to take a two-week vacation but because his office was being decorated, extended it a week longer. Hal is going to Star Lake, Wisconsin, with his family. . . . More news about returning service men. Ralph Seidl is out but plans to take a vacation before going back to work. Ralph has recently bought a home but so far he has been unable to move in. . . . Marshall Blume is back in Ravinia. . . . E. B. Stegmaier, who formerly practiced in Skokie, is now located in Woodstock. . . . Davies Lazear's son, Bill, is back and is going to associate with his father. . . . Roger Huntington showed his colored slides of Florida to the Evanston dentists, and now everyone wants to move South. . . . Homes have been purchased by two of the boys lately. Frank Woods bought a place in Winnetka and George Teuscher, one in Barrington. . . .

Eddie Baumann hit the daily double at Arlington to the tune of \$321.00. It pays in more ways than one to practice in Arlington Heights.—*Edward J. Sullivan, Branch Correspondent.*

#### NORTH SIDE

Since the last issue of this column, your scribe has enjoyed a rapid but extended tour of the Southwest. We drove from Chicago to Globe, Arizona, in 40½ hours. Our return tour included a shopping trip in Mexico. In all, we traveled 4,000 miles in eight days. . . . Harvey Henderson is another of the many Northsiders away on piscatorial pursuits in the North Woods of Wisconsin. . . . John Boodin is in Minnesota with his regular fishing crowd. . . . Herbert Boman enjoyed the Fourth of July holiday at his summer place at Sturgeon Bay. . . . Roland Weber is on vacation but his whereabouts are unknown to this writer. . . . Ted Olson is planning a vacation in the near future. . . . Arthur Allen enjoyed a quiet rest over the holidays. . . . Edward Ashley's office has been purchased by Dr. Alfred N. Mortenson. . . . May all my assistants be as diligent as Russell Boothe, to whom I am indebted for much of this news.—*Orrin G. Baumgarth, Branch Correspondent.*

#### WEST SIDE

Nearly 100 men attended the Annual Golf Outing of the West Side Branch. This function was voted a complete and outstanding success in attendance, sports events and jolly good fellowship in the opinion of those polled. A warm "aloha" was extended to a distinguished guest, Dr. J. H. Kanna from Kanai, Hawaii, who has traveled 5,000 miles to attend a postgraduate course in oral surgery at Loyola University Dental School and to have a reunion with his classmates and friends—R. W. McNulty, Harold Oppice, William I. McNeil, Earl Boulger, Michael DeRose and George Vogt. Welcome guests from other branches were Eugene Aaron, Marvin E. Chapin, K. H.

Ladwig and James Olshan. Here are some highlights of the golf tournament. An enthusiastic gallery of spectators consisting of C. S. Bigelow, M. C. Berman, E. J. Brogmus, Max Chubin, Marvin E. Chapin, Michael DeRose, Sidney Goren, Henry Luskin, Samuel Kretshmer, I. C. Miller, A. F. Stark, Arthur Sells and George Vogt, witnessed a close and hotly contested match between George Barnes, R. J. Bailey and W. A. Whittaker, which ended up shooting golf billiards on the putting green. The contest was called on account of darkness. Were they surprised! While Henry Luskin was looking for a ball in the rough for about ten minutes, Leo Cahill discovered Henry's golf ball about 8 inches from the pin. Sid Goren made a 5 on a 473 yard hole and followed it by making a 5 on the next 119 yard hole. The golf prizes went to the following winners: Leo Cahill, J. S. Vission, James Olshan, Henry Luskin and Robert F. Tuck. George Vogt received the banner door prize, a complete bathroom furnished with an automatic cigarette dispenser. A record high on horseshoe ringers was rung up by L. T. Weinshenker. To sum up, the weather was grand, the merriment great, the games and prizes plentiful and the food delightful. A JOLLY GOOD TIME was had by all. . . . Plans for a banquet and gala celebration for the 112 returning service men from the West Side Branch were completed. The celebration is to be held at the Midwest Athletic Club on November 12. Leo Cahill, chairman of the Veterans' Committee in charge of this party, has arranged for a hearty reunion. Tickets for this event can be obtained from him. Tariff, \$5.00, including dinner, entertainment and prizes. To start the ball rolling a dealer representative bought five tickets; an avalanche of ticket sales followed. Show your expression of gratitude to our returning service men and make your reservation now. . . . Art Tessler again joins the buggy parade, this time it's a girl, Sheri. His son, Howard, wants to return his sister to the stork, but Art lost his rain check. . . . The stork delivered a bundle to Stanley Sherman.

This time it's another pretty, blue-eyed girl, Sherry Lee, born on July 7 at Michael Reese Hospital. Mother and baby are doing well and the father is recovering. . . . Marvin E. Chapin is foregoing his vacation because his wife is awaiting the arrival of the stork late this fall. He thinks, however, the stork may arrive earlier by a jet propulsion plan. . . . After three years of pinch hitting at the Cook County Children's Clinic, Ernest Brogmus graciously resigned his position to a returning veteran. . . . If you are vacation bound or are now vacationing, let us hear from you.—Maurice C. Berman, Branch Correspondent.

#### ENGLEWOOD

Louis B. Padden, our new "chief" of Englewood correspondents, has taken over the work which was so well supervised by R. C. Van Dam for the past four years—orchids to you Van! A year's work is planned. It is hoped that news items will clear with more despatch through the various members appointed as correspondents. They are Edmund Werre, O. E. Johnson, Robert Tharp, T. H. Vermeulen, Francis O'Grady and Reuben Anderson. If any news items about Englewood members come your way, please communicate with one of these men, or the "chief". . . . Edmond L. Hoyne who entertained his ex-service buddy, Douglas J. Jamieson an orthodontist of Detroit, now is happier because he was able to move into the same office space he occupied before leaving for service in the Army Dental Corps. The location is 63rd Street and Kedzie Avenue. Maxim J. Pincus moved into the office vacated by E. L. Hoyne at 733 West 64th Street. . . . If you have any letters from Russian friends, contact I. J. Kuzminsky—he reads Russian very well! Chester E. Bromboz and A. L. Kropidlowski, buddies for a long time, are now practicing on different corners of 31st and Halsted Streets. . . . We are happy to know that Donald E. Kellogg recovered from an operation at Billings Hospital and had a

(Continued on page 26)

## GOLD INLAYS AND CROWN AND BRIDGE PROSTHESIS

(Continued from page 6)

ticulated in an instrument which offers protrusive and lateral excursions. New Hue platinum pin facings are most desirable and they are fitted to the edentulous area. No pressure on the tissues should be exerted with any posterior pontics. In the anterior region, pontics must be fitted as snugly as possible to the soft tissues for esthetic reasons. Interproximal spaces are of tremendous value to the sanitation of the restoration and to the health of the surrounding tissues.

### PROCEDURE

All pontics should possess a porcelain saddle and here again a hard gold should be used in the construction of the backings. The use of carbon points in the casting process is to be discouraged. When a semi-fixed bridge is being constructed with a stress breaker in one attachment, the main attachment is completely polished before soldering. However, in the case of a fixed bridge where two pontics are to be soldered to both attachments the complete soldering should not be made from the master cast. The bridge must then be left unsoldered in between the two pontics and both sections are fitted in the mouth. A plaster splint impression is taken for the final soldering. This procedure is advocated due to the precise relationship of one attachment to the other. With the changes in the master cast, due to the expansion of the low fusing metal and stone, and discrepancies in the soldering process, one could hardly expect a correct relationship between the two attachments. No doubt this procedure,

being a longer one, will ultimately compensate for the resoldering or perhaps the remaking of the bridge.

### ESTHETICS

Anterior facings with the least amount of staining create the most natural appearance—narrow silicates, brown hairlines and gingival brown are the simplest and most effective. A ceramic light and small portions of concentrated pink cements are ideal for the cementation of facings of the finished bridge.

The occlusion of pontics should be carefully checked and at no time are the pontics to be longer in lateral excursion as this would definitely result in a breakage of the porcelain facing regardless of the amount of incisal gold. This often necessitates the grinding of the opposing teeth. Besides function the two important features in a good bridge are esthetics and durability, and unnecessary grinding on a completed bridge often results in the destruction of both.

Local anesthesia is employed in the final cementation of the finished bridge—it provides an opportunity for finishing the bridge completely and satisfactorily with the least amount of discomfort for the patient.

Upon completion of the bridge the patient should be instructed in the daily use of wide dental tape and interproximal stimulation in addition to toothbrushing.

Within a month the patient is instructed to return for the final check-up of occlusion and the proper home care of the restorations.

## NEWS OF THE BRANCHES

(Continued from page 22)

restful vacation somewhere in the South. He is again on the job. Walter V. Raczyński, now discharged from service, will be back at his old office after completing a refresher course at Illinois Dental School. . . . The members of Englewood Branch extend their heartfelt sympathy to the widow and family of Paul G. Papsdorf who died on June 21. Zenon J. Krol will assume the oral surgery and exodontia practice of his associate, the late Paul G. Papsdorf. . . . Echo of our Navajo golf meet: over 100 men present, and although rain did dampen the grounds, the spirits of all were good and it was on the whole, a grand success. Thanks to the hard working co-chairmen W. E. Shippee, Edmund A. Werre and Gus W. Solfronk. Please remember to send in your news items early to the correspondents mentioned in the beginning of this column.—Boles G. Gobby, Assistant Branch Correspondent.

## LOST MOTION

(TIME)

is costly to your  
practice

So much lost motion exists in the average dental office that in an 8 hour day, the Dentist is fortunate to have 4 hours productive time. This is an established fact hard to believe unless you've kept accurate time records. BUT through EFFICIENT MANAGEMENT and IMPROVED PROCEDURES YOU CAN INCREASE YOUR PRODUCTIVE TIME considerably. This can be accomplished through the Bosworth Plan of Practice Management. Write today for the facts.

*American* hands . . .  
thinking, competent hands, making  
precision restorations  
for dentists who WANT precision restorations.

It's time to play golf . . if you've got time!  
. . . the which may depend on  
replacements that do or do not FIT!

Ever use *American* service?

Some of our doctor friends have used *American* Service, *American* replacements for so many years, they've forgotten that replacements that do not fit can bar them (at intervals) from long straight drives and gorgeous pitch shots and curling putts that do go down . . . and, a solacing 19th hole.

When things pile up in your office . . . when there isn't half enough time to do half the things you want to do . . . when you've got to miss the war on Wednesday's fairways . . .

Why don't you use *American* Service? The replacements we'd make for you would be no dressed-up dudes. They'd FIT, they'd fit your patient comfortably, without the costly fiddly fuddling of "make-over" and "adjusting."

They're the finest we know how to make. They look good; they're designed incomparably; they satisfy both you and your hardest-to-please patients; they fit your patients comfortably . . . that you may make MORE money and still play for a dime a hole with the three incomparables . . . on Wednesday afternoons.

USE

# Temporary Assistance

Before a child is able to walk by himself, he needs the guiding hand of his mother. • The new denture wearer may need help, too! By providing a resilient cushion and by strengthening the seal between dentures and gums, WERNET'S POWDER gives helpful assistance until, by proper muscular control and tissue adaptation, the patient is able to retain and use his dentures comfortably and efficiently.

## WERNET'S POWDER

The Perfect Combination

# Durallium

NO  
METALLIC  
TASTE

Besides having NO METALLIC TASTE, DURALLIUM is the Outstanding Chrome Cobalt Alloy because:

- Lighter
- Stronger
- Casts to Precision
- Acid Resistant
- Abrasion Proof
- Resists Torque
- Tolerated by Oral Tissue
- Will not Discolor
- Additions may be Soldered
- Permanent Beautiful Lustre
- Less Galvanic Action

NORMAL  
TOOTH  
RELATIONS

(Cast of Fluorescent Porcelain)

Natural lingual dimensions assure normal enunciation of words.  
No unnecessary bulk of denture base material is needed.

CERAMICAST TEETH are superior because:

- Painless
- Positive Retention
- Hardenest and Toughest
- Do not Sliver or Chip
- High Lingual Comfort
- Beautiful in Hue
- Most Natural in Appearance
- Desirable Selection of Shades and Molds
- Short Bite Strength Against Leverage
- Natural Translucency
- Replaceable Lock

## WHY THE *Smiles* PLAN WAS CREATED

Many people are unable to pay cash for needed dental attention. As a result, essential health measures are often postponed. In other cases, half-way steps are taken. In still other instances, far too numerous, people assume a substantial dental debt with no plan for repaying it. Unfortunately, such debts are often regarded as an item that can be put off indefinitely.

**Smiles System enables your patients to have  
complete dentistry now when it is *needed* and  
provides a plan of payments to fit their needs.  
*YOU RECEIVE YOUR MONEY AT ONCE!***

Install the Smiles Plan now. It is completely ready for use. . . . It is simple and profitable. . . . All forms needed to start and operate this plan are available to you.

**YOU SHOULD BE INTERESTED IN THE FINANCIAL HEALTH,  
AS WELL AS THE PHYSICAL HEALTH, OF YOUR PATIENTS.  
CALL US TODAY.**
